My goal is to guide clients to amicable resolutions with practical and compassionate advice.

Rebecca works exclusively in family law. In her practice, she prioritizes building trust and rapport with her clients, where they can openly discuss their concerns and goals. Rebecca provides clients with practical advice to navigate challenging legal matters, while ensuring that every individual receives the dedicated representation they deserve.

Rebecca believes in alternate dispute resolution processes to foster lasting and amicable settlements, but she remains prepared to navigate the courtroom when needed. She also helps protect clients' interests by assisting with cohabitation, prenuptial, and postnuptial agreements.

In her spare time, Rebecca enjoys being outdoors in nature, spending time with family and friends, biking, exercising, playing piano, reading, and yoga.
